OVERVIEW

Conference: The future health of more than 500 American Indian/Alaska Native tribes is the focus of the Healthier Indian Communities through Partnerships and Prevention Summit sponsored by the Indian Health Service. The Summit will focus on the present and future directions of health promotion and disease prevention for American Indians/Alaska Natives.

Conference Objectives:

- 1) To create and expand partners (federal and non-federal) that will result in enhanced resources for Indian people;
- 2) To share best practices being implemented in Indian Country on community and clinical health promotion/disease prevention, best practices that will ultimately improve the health status of the AI/AN population; and
- 3) To demonstrate the agency's commitment to Health Promotion/Disease Prevention to eliminate disparities.

Luncheons: Tickets for the two luncheons will be distributed at the conference registration table. You will need a ticket to attend the luncheons. **Please remember that all official conference functions, including the luncheons, require your conference badge for identification.**

Continuing Professional Education Credits: The Indian Health Service (IHS) Clinical Support Center is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The IHS Clinical Support Center designates this continuing education activity for up to 16½ hours of Category 1 credit toward the Physician's Recognition Award of the American Medical Association. Each physician should claim only those hours of credit he or she actually spent in the educational activity.

This Category 1 credit is accepted by the American Academy of Physician Assistants and the American College of Nurse Midwives.

The Indian Health Service Clinical Support Center is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation, and designates this activity for 19.2 contact hours for nurses.

This Commission Dietetic Registration (CDR) pre-approved program has been approved for 16.0 total hours of continuing professional education credits for registered dietitians and dietetic technicians, registered.
